

MESOTHELIOMA SUPPORT

No one understands more than someone who has been there...

At last there is a book that talks about the emotional turmoil of coping with a mesothelioma diagnosis

'LEAN ON ME' **CANCER THROUGH A CARERS EYES**, by Lorraine Kember is a deeply moving and inspirational read which clearly demonstrates the true meaning of love and the strength of the human spirit.

*'So down this frightening road we'll go together
Lean on me when ever you are tired...'*

These loving words form part of a poem Lorraine wrote for her husband Brian shortly after he was diagnosed with mesothelioma.

Dr's recommend 'Lean on Me' as a Must Read book for anyone who has been touched by mesothelioma or cancer of any kind.

READ LORRAINE AND BRIAN'S INSPIRATIONAL TRUE STORY

- Discover the methods and tools Lorraine used to control Brian's pain and symptoms and dramatically improved the quality of his life.
- Find out how Lorraine coped with her 'anticipatory' grief.
- Read her deeply moving diary excerpts and poems
- Find out how you too can make a difference!

Readers Letter.

I haven't seen anything like your book anywhere, to people like me it is like a shining beacon in a vast ocean! I feel your book is the only link I have with someone else who understands what I am going through! You are still my place in the dark I can go, knowing you will understand every feeling or thought I might have. I will always be grateful for your deciding to write it all down, pouring out your heart, and your feelings, which must have been hard, but gratifying, probably not knowing how that courage and determination would eventually be a lifeline to many others like me.
